

## FY15 Fatalities and Catastrophes To Date

The following is a listing of the (FEDERAL OSHA) Fiscal Year 2015 reported fatalities and catastrophes (fat/cat) for all industry classifications. For purposes of this report a “catastrophe” is determined by an incident that results in the hospitalization of three (3) or more workers. “Hospitalization” means admittance to the hospital, and not transport to a hospital for treatment and release. The listing is provide to assist our members in recognizing the number and variety of fat/cat causes. Though these reports come from all industry classifications, members will find that similar incidents can and do occur within the construction industry. This listing will be updated on a monthly basis as the report is updated on the OSHA website.

| Date of Incident | Company, City, State, ZIP   | Victim(s)                    | Preliminary Description of Incident  | Fatality or Catastrophe | Inspection #            |
|------------------|---|------------------------------|--|-------------------------|-------------------------|
| 10/3/2015        | TNT International LTD, Newark, NJ 07114                           | Vitaliy Popovych             | Worker struck and killed by forklift.  | Fatality                | <a href="#">1096107</a> |
