

# Transform Your Career and Your Workplace as a Trained Safety Practitioner

The University of Delaware partners with the Delaware Valley Safety Council to offer these intensive training programs taught by Authorized OSHA Outreach Trainers.

## Certified Occupational Safety Specialist (COSS)

### Become a trained safety practitioner

Developed by expert safety practitioners focused on the core competencies of occupational safety and health, the Certified Occupational Safety Specialist (COSS) designation is recognized nationwide for its rigorous standards and outstanding curriculum. COSS graduates are able to teach their employees and colleagues how to work safely and eliminate the risk of fatalities and near misses—and avoid safety violations and OSHA citations.

The University of Delaware has partnered with the Delaware Valley Safety Council to offer this intensive one-week training program taught by an Authorized OSHA Outreach Trainer.

*Earn the nationally recognized COSS designation. Participants who successfully complete the program earn the nationally recognized Certified Occupational Safety Specialist (COSS) designation, which is endorsed by the American Association of Safety Councils and the American Council for Construction Education.*

### WHO SHOULD PARTICIPATE?

This course is designed for entry-level safety professionals as well as experienced safety practitioners wishing to stay current in the field. Safety training is applicable to a wide range of industries, including construction, manufacturing, transportation, energy and utilities, public safety and security, healthcare, food, government and human resources. Prerequisite: high school diploma or equivalent.

**SCHEDULE:** July 23–27 or October 22–26, 2018, 8 a.m.–5 p.m.

**LOCATION:** 501 South College Ave., Newark, Del.

**PRICE:** \$2,649, course materials included.

## Certificate for Occupational Safety Managers (COSM)

### Advanced safety training for occupational safety professionals

This program focuses on safety processes and procedures and building the safety culture to lead your company toward excellence.

Safety professionals and managers who have seen the difference training can make can take the next professional step in their careers with the COSM designation. COSM is an advanced, executive-level safety program consisting of 40 hours of specialized training.

After completing 40 hours of training and submitting all assignments, participants will receive the COSM credential.

### WHO SHOULD PARTICIPATE?

This program benefits all organizational safety leaders involved in processes and decision-making as well as other managers and professionals charged with workplace health and safety for their organizations. Prerequisite: minimum two years of safety, health or environmental work experience. Topics covered:

- Essentials of safety management
- Safety competencies and leadership
- Management roles and responsibilities
- Strategic planning and evaluating
- Managing risk (hazards and analysis), safety finances and workers' compensation
- Communicating the safety message
- Presenting to high-level executives
- Injury management, incentives and discipline
- Claims and investigation in post-accident management

**SCHEDULE:** November 5–9, 2018, 8 a.m.–5 p.m.

**LOCATION:** 501 South College Ave., Newark, Del.

**PRICE:** \$2,749, course materials included.
