Each aspect of life—work, family, health, community, spirituality, social life, and finances—commands energy and focus. This webinar will help you navigate all these aspects with ease, and adapt to anything life throws your way.

Disagree Agreeably (1 hour Live Online Webinar)

As long as there is more than one person working in an office there will be disagreements. Left unresolved, they can waste time, foster resentment and negatively affect productivity. It's important to accept disagreements as learning opportunities and address them in an agreeable manner. You will gain insights into your personality, manage your reaction when dealing with differences of opinions and use a formula to disagree agreeably with others.

Dream Big, Focus Small (1 hour Live Online Webinar)

We all set goals for ourselves, in both our personal and professional lives. Sometimes, we rise above all challenges and achieve great things; other times, we give up or fall short. The key to achieving our goals lies in being clear about what we really want. This webinar course will help you develop SMARTER goals, and achieve them step by step.

Managing Workplace Stress (3 hour Live Online Workshop)

Working in today's competitive environment can take a toll on your mental health. The many challenges you face can easily elevate your stress levels, so it's important to learn how to cope effectively. People who can manage their stress levels well, and bring an optimistic outlook to the workplace are far more likely to accomplish their objectives. So... "Don't worry, be happy!"

Powerful Conversations to Engage Your Workforce (1 hour Live Online Webinar)

Even though you may interact with team members on a regular basis, some may still feel like strangers to you. The best way to create the foundation for professional relationships is by connecting with others as individuals, looking beyond their role in the organization. Great conversationalists put others at ease, build trust, and improve teamwork.
