

Ladder and Scaffolding Requirements

Powered by: *United Academy*®

GBCA, in partnership with United Academy, is pleased to offer an online training course for Ladder and Scaffolding Requirements. This course trains employees to recognize the hazards associated with ladders, stairways, and the type of scaffolding that is used at worksites.

IN THIS COURSE, STUDENTS LEARN:

- Identify the construction, use, placement, care, and handling of ladders and scaffolding
- Describe the proper use of a ladder and scaffolding
- Specify what safety features you should look for when selecting a ladder and scaffolding
- Identify the correct procedures for erecting ladders and scaffolding
- Identify types of fall protection devices for ladders

COURSE DETAILS:

- Available online, anytime

- Offered in English
