

How Sleep

Affects Your Health

1 in 3 adults don't get enough sleep.

How much *sleep* do you need?

Most adults need **7 to 9** hours of sleep each night. Kids and teens need even more. Yet the average high school student gets only 6.5 hours per school night, and about 20% get 5 hours or less!

Benefits of good *sleep*

• Healing and repair of cells, tissues and blood vessels

• Stronger immune system

• More creativity and productivity

• Improved mood and energy

• Better brain function including alertness, decision-making, focus, learning, memory, reasoning and problem-solving

• Healthy growth and development for kids and teens

• Better ability to build muscle

• Quicker reflexes

• Less risk of chronic disease

Your *Health*
